Being an entrepreneur involves gathering resources, doing research, allocating available resources, and setting a timetable with a sense of urgency. Your priorities will depend on your goals. What are you trying to accomplish? Maybe it's your first time in business, or you're operating a business where you need to get the business off the ground and move ahead. Whatever your situation is, developing a business plan can help you set specific goals. It's also a good idea to look at your goals and brainstorm a strategy that will help you reach them. Doing this will help you plan ahead, focus on what you want, and alleviate stress when you're faced with unexpected situations. To help you get started, here's a checklist of your next steps. 1. Planning Developing a business plan is a good start. If you're not sure where to start, ask yourself these questions: What do I want to accomplish? What am I good at? What's the biggest challenge for me? Developing a plan is the first step to achieving your goals. Some people prefer to write down thoughts on a blank piece of paper, while others prefer to use some kind of software program. Either way, a written business plan is a good resource to help you think through what you want to accomplish. 2. Resources One thing you need to think about is resources. You'll need to define who your main resources are going to be, and what you need to do to ensure you're prepared. For example, let's say you decide your main resources are going to be you, your family, and your friends. You'll also need to decide what else you will need. This will include tools, materials, time, money, space, and access to the internet. Your definition of resources is flexible. There are some basic elements you need to include in any plan. 3. Timeline Your next step will be to set a realistic deadline. Think about the time you have to make your plan come to life. Also, think about what you need to do to achieve it. Setting deadlines and having a plan are essential for achieving goals. If you have a particular timeframe in mind, don't be afraid to set hard deadlines. They're not always realistic, but they $\mathbf{\hat{\psi}}$
